Large, 1500 mL capacity

GOJO® CXi™ Touch Free  
Counter Mount Dispenser

Support a touch-free washroom.

GOJO CX™  
Counter Mount Dispenser

Push-style dispensing.

In a recent study:

**25%** of bulk soap dispensers  
were **CONTAMINATED** with bacteria.

**FECAL COLIFORMS:**  
*One of the variety of  
germs found in the bulk  
soap study.*

A recent study,<sup>3</sup> conducted by microbiologists at the University of Arizona, found that **25% of bulk soap dispensers** (like the kind you refill from a gallon jug) contain soap with unsafe levels of bacteria. Fecal-based organisms were found in 16% of the samples. Washing with contaminated soap could actually place bacteria on your hands.

**Is it worth the risk?**

# GOJO® CX™ and CXi™ Counter Mount Systems

1 Green Seal is an independent, non-profit organization that strives to achieve a healthier and cleaner environment by identifying and promoting products and services that cause less toxic pollution and waste, conserve resources and habitats, and minimize global warming and ozone depletion. Green Seal has no financial interest in the products that it certifies or recommends nor in any manufacturer or company. Green Seal's evaluations are based on state-of-the-art science and information using internationally recognized methods and procedures. Thus, Green Seal provides credible, objective, and unbiased information whose only purpose is to direct the purchaser to environmentally responsible products and services.

2 The EcoLogo Program, North America's largest and premiere ecolabelling program, provides a market incentive to manufacturers and suppliers of environmentally preferable products and services, and thereby helps consumers identify products and services that are less harmful to the environment. Established in 1988, the ECP was the second national ecolabelling program in the world.
