

A better way to clean.

The CV 30.

True HEPA filtration.
Unmatched performance.

Designed By You

The Tornado® CV 30 and CV 38 are the most distinctive single motor uprights in their class. Some of the largest consumers of upright vacuums in the market helped us design these units from the ground up. A lightweight handle, brush-assisted movement, on-board tools, quiet operation, and true HEPA (not an add-on, but part of the design) make the Tornado® CV 30 and CV 38 the choice of cleaning professionals. And it's available in 12" and 15" models for all your cleaning needs.

3-Stage HEPA Filtration

The true HEPA filtration (99.97% efficiency at 0.3 microns) is designed to contain fine particulate and dust, improving indoor air quality and reducing the risk associated with the redistribution of potentially harmful particles and allergens.

The 3-stage filtration system includes a unique CleanBreeze disposable filter bag, an intake filter, and a true HEPA filter cartridge all as standard. The CleanBreeze disposable filter is an intricate web of

randomly spun polymer fibers capturing far more particles and allergens than conventional paper bags. Dust emissions are reduced up to 60% over traditional paper filters.

Versatility

The Tornado® CV 30 and CV 38 provide effortless operation, versatility, innovative features, ergonomic design, quiet operation, and true HEPA filtration for use in many different environments including:

- Hospitals and Healthcare Facilities
- Schools and Universities
- Hotels and Resorts
- Restaurants
- Commercial Office Buildings
- Retail Stores and Shopping Malls
- Industrial Facilities, large and small

And it's only from Tornado.

The CV 30. Effortless operation, ergonomic

design, and unmatched performance.

1. Ergonomic Grip

Enclosed grip allows for multiple hand positioning.

2. Versatile Hose Attachment

With onboard tools, detailing cleaning is a breeze. A unique hose strain relief prevents hose kinking and cracking that is common on competitors' units.

3. Easy Access Cover

Rugged front cover seals to contain fine particulates and dust. If the filters are not properly in place, the front cover will not close.

4. Built to Last

Rugged polypropylene base with non-marking injection molded rubber bumper built right in.

5. Innovative Wheel Design

Exclusively engineered, shock-absorbing wheels are quiet and agile on any surface.

The new CV HEPA-filtered vacuums are specifically designed for use in noise sensitive environments.

PRODUCT SPECIFICATIONS

MODEL	CV 30	CV 38
CATALOG NUMBER	91449	91451
VAC MOTOR	9 AMP	9 AMP
CFM	102	102
WATER LIFT	84"	84"
POWER CORD	40'	40'
CAPACITY	5 liter/1.32 GAL	5 liter/1.32 GAL
SOUND LEVEL	66 dB	66 dB
WEIGHT	17.4 LBS	18 LBS
DIMENSIONS (L X W X H)	11.5" X 12" X 45"	11.5" X 15" X 45"

STANDARD ACCESSORIES

CREVICE TOOL	K6906240	K6906240
UPHOLSTERY/ UTILITY TOOL	K6900233	K6900233
CLEANBREEZE DISPOSABLE COLLECTION BAG (5 PK)	K6904305*	K6904305*
ROLLER BAR	K6906641	K6906643
TRUE HEPA FILTER CARTRIDGE	K6414760	K6414760
VAC MOTOR INTAKE FILTER	K5731611	K5731611

OPTIONAL ACCESSORIES

REPLACEMENT FOAM FILTER (USED IN LIEU OF HEPA) (3 PK)	K6414761	K6414761
CLOTH REUSABLE FILTER BAG	K6904301	K6904301
PAPER COLLECTION BAG (10 PK)	K6904294	K6904294
PAPER COLLECTION BAG (300 PK)	K6904303	K6904303

* One bag included with unit.

3-Stage Filtration

The filtration system includes a disposable filter bag, an intake filter, and a true HEPA filter cartridge.

Filter Installation is A Breeze

A patent-pending design making torn bags a thing of the past. Simply slide the bag in, turn a lever, and you're done.

Easy to Clean

The vacuum hose and throat can be easily accessed to clean out debris that is trapped inside.

Changeable roller brush

Requires no tools and allows hairs, threads, etc. to be removed quickly and easily
